

Ibon Oleagordia Ruiz

Ibon Oleagordia Ruiz has a degree in Physical Sciences (specialty in Electronics and Automation) since 1999 and an Electronics Engineer since 2001 from the University of the Basque Country. He also completed a PhD in Computer Science with a European mention from the University of Deusto in 2015. He has participated in more than 80 research projects nationally and internationally since 2003.

Since 2008, he is a researcher at the Deustotech eVida where his research activity focuses mainly on the digital processing of biological signals and the development of new technologies applied to the improvement of health and quality of life. He is part of the "eVida" team, recognized by the Basque Government's Research Education Department in the periods 2010-2012 and 2013-2015 (type B) and 2016-2021 (type A). This group, under the name "Life Living Lab (l3lab)", has obtained the recognition "European Network of Living Labs" (ENOLL) 2012.
